

DAYTONA 

**THE
DIFFERENCE
IS DISTINCT**

Daytona Sandown Park is recruiting for a: **HEAD GO-KART MECHANIC**

HOURS: Full-time/Flexible – Applicants **MUST** be available to work evenings & weekends

LOCATION: Daytona Sandown Park, Esher, KT10 8AN

SALARY: £negotiable – based on previous experience

Daytona Sandown Park are currently looking for our Head of Engineering for our 7-day operational business.

As the Head of our Engineering department, you will be required to carry out all aspects of the day-to-day running of the department whilst managing a small team and ensuring that our kart fleet is maintained to the highest standard. The successful candidate will be expected to carry out admin duties required for the role, manage a small team, and run the workshop completing kart maintenance and ensuring work is correctly recorded and carried out to a high standard whilst ensuring compliance.

THE SUCCESSFUL CANDIDATE MUST:

- Have mechanical experience within the corporate / race kart or motorsport sectors.
- Be flexible and able to work evenings & weekends in addition to weekdays.
- Be able to follow instruction quickly and effectively.
- Be highly motivated and work well in a team.
- Must have previous mechanical experience along with a thorough understanding of engineering principles.
- A thorough understanding of kart maintenance carried out to the required specification.
- Be responsible for ensuring the correct level of engineering staff are present at all events.

- Confident in communicating with suppliers and colleagues across Group
- Previous experience from a Supervisory or Management level in order to manage a small team.
- Have excellent communication skills.
- Ensure that the karts are maintained to the highest standards of safety.
- Be able to work unassisted and ensure all targets are met without fail.
- Have excellent problem-solving abilities quickly and efficiently.
- Ensure all paperwork is kept up to date on a daily basis within the required timescales.
- Have maintenance level mechanical and engineering experience.
- Applicants MUST have own tools and be willing to purchase any tools required to carry out daily maintenance on the karts.
- A basic concept of stock and budget control is essential; however, training will be provided.

Training will be given in all areas of the role. Flexibility with working hours is essential to meet company needs
